Flight Information

The accuracy and currency of information contained in this guide is uncertain due to the difficulty in obtaining the information and the rapidly changing environment. Aviators should always check with a country's aviation authority or a local aviation handler to determine any specific aircraft airworthiness/equipment and crew/passenger entry requirements.

Airports of Entry

Diosdado Macapagal	RPLC
Francisco Bangoy	RPMD
Kalibo	RPVK
Laoag	RPLI
Mactan-Cebu	RPVM
Ninoy Aquino	RPLL
Puerto Princesa	RPVP
Subic Bay	RPLB
Tambler	RPMR
Zamboanga	RPMZ

Entry/Exit Requirements

Entry and exit requirements are for aircraft departing the United States non-stop to country of destination. These requirements do not include any technical stops. Please refer to **Technical Stop** section in **Additional Information** for the country at which the technical stop will be made.

Entry and Exit documentation forms vary from country to country. In general, however, ICAO member countries will accept the following standard ICAO Annex 9 Entry/Exit documents:

- General Declaration
- Passenger Manifest
- Cargo Manifest
- Embarkation/Disembarkation Card
- Certificate of Residual Disinsection

Examples of these documents can be found at [/FIM Home>General Information>International Flying Overview> ICAO Annex 9 Entry/Exit Documents](#). The acceptance of these ICAO documents must be confirmed by the appropriate AIS.

Entry Requirements (Departing U.S.)

- File an [eAPIS](#) manifest outbound (recommend inbound at this time, too)
- File and activate international flight plan
- Land at a designated airport of entry (AOE) – customs and immigration

The following entry documents are required:

Passengers –

- Passport (valid for at least 6 months beyond the period of stay)
- ICAO Embarkation/Disembarkation Card

Pilots – Same as for passengers

Note: Other pilot/crewmember requirements may be applicable in lieu of those stated. Contact appropriate AIS for further clarification prior to flight.

Aircraft –

- General Declaration – 2 for Immigration, 1 for Customs, 1 for Public Health
- Passenger Manifest - 2 for Immigration, 1 for Customs, 1 for Public Health
- Aircraft must be disinfected with WHO approved formula aerosol

Exit Requirements (Departing Philippines)

- Same documents as required for Entry (see Aircraft- above)
- Depart from an AOE
- File [eAPIS](#) manifest if inbound to the U.S.
- File an international flight plan
- Call U.S. Customs at filed U.S. airport of entry
- Outgoing clearance from the Quarantine Medical Officer

Additional Flight Information

Aircraft Instruments and Equipment

U.S. aircraft airworthiness and certification requirements may not meet other countries requirements. It is the responsibility of the pilot to determine if the aircraft meet those requirements.

Items listed below are for pilots' reference to determine if the aircraft meets minimum instrument and equipment requirements of the destination country. Additional equipment may be required to comply with the airspace navigation requirements

All general aviation aircraft must have dual ADFs and VORs for IFR operations

ICAO Documents can be purchased from ICAO at: <http://store1.icao.int/search.ch2>

Technical Stop/Overflight

Technical stops and overflights are subject to the current Philippines aviation regulations. Overflying Philippine airspace requires a diplomatic clearance from the Department of Foreign Affairs (DFA), Manila (Attn: Assistant Secretary for Legal Affairs) 7 days prior to entering Philippine airspace.

Non-scheduled Commercial Flights (Charters)

If an operator intends to perform a (series of) non-scheduled flight(s) into the Philippines for the purpose of taking on or discharging passengers, cargo or mail, it is necessary for the operator to apply to Civil Aeronautics Board for permission not less than 24 hours in advance of the landing.

Commercial air transport aircraft operating in the Philippines must adhere to the provisions of ICAO Annex 6- Operation of Aircraft, Part 1, Chapter 6 (Aeroplane instruments, Equipment and Flight Document) and Chapter 7 (Aeroplane Communication and Navigation Equipment

ICAO documents can be purchased at: <http://store1.icao.int/search.ch2>

Private Flights

Permission must be submitted to the Civil Aviation Authority of the Philippines at least seven (7) days prior to entry of Philippine airspace.

The information contained in the flight plan is accepted as adequate advance notification of the arrival of incoming aircraft; such information must be transmitted so that it will be received by the public authorities concerned at least two hours in advance of arrival.

For a stay beyond 7 days, a "carnet de passages en doune" for the aircraft will be accepted in lieu of any other financial guarantee.

Float Planes

The IFIM staff is not aware of any requirements or restrictions for Float Planes.

Light Sport Aircraft (LSA)

The IFIM staff is not aware of any requirements or restrictions for Light Sport Aircraft

Fees

There are varying fees for landing, parking, hangarage, passenger service and air navigation. Consult the Philippine AIP for specific airport charges.

Fuel

Fuel availability varies between airports. The Philippine AIP should be referred to for detailed information.

VFR/Night VFR

VFR flight may not be operated above FL200.

Night VFR flight may only be operated at night with the authorization from the appropriate ATS authority.

Island Hopping

The IFIM staff is not aware of any requirements or restrictions for island hopping.

Aeronautical Charts

Aeronautical charts for the Philippines are available from:
